

WMF PROG GV

WMF PROGRAMAT SERIES Models: GV

The Programat GV series of WMF Super Automatic Coffee Machines are designed for medium to very large size businesses. Easy beverage selection allows for one-touch regular and decaffeinated coffee preparation. Brewing coffee in quantities from 6 cups to 26.5 gallons can be done with the touch of a button. With no paper filters, no waste, automated brewing, and ease of operation, the WMF Programat GV truly is one of a kind.
